Arnold van Leeuwen

**Arnold van Leeuwen: Business Unit Manager
Insentec BV**

Arnold started with Insentec in 1982 as a mechanical engineer. In 1986 Arnold moved to the Marketing and Sales Division. This move took him and his family to Canada to develop business for Insentec in the swine and research markets. In 1992, Arnold and his family moved back to Marknesse, in the Netherlands. Since that time, he has been managing their Export Business Unit. Arnold is happily married with two sons.

Lars van der Muelen

Lars van der Muelen and Duane Koster are partners for the last 5 years in Dairy Vision Consulting (started in 2003, formerly called VIB) Dairy Vision offers complete and hands-on farm advice on all aspects of the dairy operation for nutrition management, young stock raising, forage management, fertility and herd health, and facility planning and design.

Lars van der Meulen

Prior to working with VIB in the Netherlands, Lars obtained his bachelors degree in Dairy Nutrition, Farm Management and Consultancy.

Duane Koster

Prior to May 2005, He spent 6 years in charge of Farm Management Support at Lely Canada Inc. This involved assisting the sales personnel with advice on barn layouts, optimizing cow flow, efficient installations and assisting the farmers with their plans to purchase, installation and operation of their robotic milking systems. Duane is happily married with 5 kids and lives with his family in Fergus, Ontario.
